

SEM Committee Communication

Electricity Regulation (Carbon Revenue Levy) (Amendment) Bill 2012

24th May 2012

The Electricity Regulation (Carbon Revenue Levy) (Amendment) Bill 2012 was published in Ireland on 18th May 2012. The purpose of the Bill is to amend the date of the last Carbon Revenue Levy period from 31st December 2012 to the date of enactment.

It is currently expected that the legislation will be enacted on Friday 25th May 2012. Therefore, the SEM Committee expects that once the Bill is enacted, with immediate effect, there will no longer be any provision for the carbon revenue levy in generators' Commercial Offer Data in the SEM.

The SEM Committee will issue further notification once the Bill is enacted.
