Dear SEM Committee Members

Re: Response to the "Treatment of Curtailment in Tie-Break situations – Proposed Decision Paper", SEM-12-090

RenewableUK is the leading renewable energy trade association acting as the champion for wind, wave and tidal energy. With over 670 member companies we represent the full range of manufacturers, ports, developers, utilities, suppliers and contractors operating in the sector.

We would like to state that we fully endorse the NIRIG Response sent 19/11/12 on this issue as NIRIG represents RenewableUK and Irish Wind Energy Association members active in Northern Ireland

Yours faithfully,

Dr. Gordon Edge
Director of Policy
