

Workshop on:

Current Treatment of Losses on SEM Interconnectors

At

Commission for Energy Regulation,
The Exchange, Belgard Square North, Tallaght, Dublin 24

On

Monday, 15 April 2013 at 11a.m.

Background:

The SEM Regulatory Authorities and the Transmission Systems Operators will co-host a workshop on *The Current Treatment of Losses on SEM Interconnectors* on Monday, 15 April 2013 at 11a.m. at the Commission for Energy Regulation, Tallaght.

This workshop was proposed in a Trading and Settlement Code Modifications Meeting on 12 February 2013 and stemmed in particular from the consideration of Urgent Mod_01_13 (Enduring Provisions for Interconnector Point of Connection). Issues to be discussed will include the current treatment of losses for interconnectors in SEM, the Inter TSO Compensation Programme, as well as the treatment of losses for interconnectors in GB.

Draft Agenda:

Chair (TBC)

11.00: Introduction and Welcome

11.05: *Derivation of Generator TLAfs and Interconnector TLAfs*, TSOs (TBC)

11.20: *Inter TSO Compensation (ITC) Program Overview* RAs and EirGrid, (TBC)

11.50: Summary of GB Elexon GB Mod P278 Treatment of Transmission Losses for Interconnector Users, (TBC)
