Response by Power NI Energy (PPB)

3 June 2015

Introduction

Power NI Energy – Power Procurement Business (“PPB”) welcomes the opportunity to respond to the consultation paper on Terms of Reference for the Market Audit 2015.

Comments

PPB believes that, in line with the 2010, 2011 and 2013 Market Audit, the Terms of Reference of the 2015 Market Audit should be expanded from the core SEMO Audit to cover a subsection of the activities of the Meter Data Providers (MDPs) and the System Operators (SOs) with their obligations under the Code. This subsection should be rotated each year in order that all the obligations of the MDPs and SOs are eventually covered and subsequently revisited in 3 - 5 year cycles. Consequently, as dispatch decisions have a major impact on a participant’s revenue and have not been covered in any previous Market Audits, PPB is in favour of option 3.
