details of any Locational Capacity Constraint that was provisionally not satisfied and the amount by which the Locational Capacity Constraint Required Quantity was not satisfied.

Add an additional definition to the Glossary:

Capacity Auction Provisional Results Publication Date

means the date by which the System Operators are expected to publish provisional Capacity Auction Results, as specified in the relevant Capacity Auction Timetable

Add an additional event into Table A in Appendix C:

10A, Capacity Auction Provisional Results Publication Date, A - 1.5 weeks

Modification Proposal Justification

(Clearly state the reason for the Modification)

To publish the Provisional Auction Results to avoid an extended period when Participants have sight of their own results and are at risk of trading with inside knowledge.

Code Objectives Furthered

(State the Code Objectives the Proposal furthers, see Sub-Section A.1.2 of the CMC Code Objectives)

A.1.2.1 This Code is designed to facilitate achievement of the following objectives (the "Capacity Market Code Objectives"):

(e) to provide transparency in the operation of the SEM;

Implication of not implementing the Modification Proposal

(State the possible outcomes should the Modification Proposal not be implemented)

Non-implementation of the modification proposal can leave Participants in a difficult situation between being notified of their Provisional Auction Results and the publishing of Final Capacity Auction Results. This difficult arises as for any trade occurring in this period (~4 weeks), a Participant would have inside information that was not available to the wider market.

Impacts

(Indicate the impacts on systems, resources, processes and/or procedures)

Changes would be needed to AP3 (section 5.2) to cover the need for the additional publication, an additional step would be needed before the current step 6.
