Re: Consultation Paper on the Implementation of Regulation 2019/943 in relation to Dispatch and Redispatch

Dear Gina and Gary,

Thank you for the opportunity to engage with the SEM Committee and respond to the consultation paper on the 'Implementation of Regulation 2019/943 in relation to Dispatch and Redispatch'.

EnergyPro Asset Management Ltd are windfarm managers for 20 windfarms across Ireland, overseeing their technical and financial management.

EnergyPro fully supports the Irish Wind Energy Association (IWEA) and Northern Ireland Renewable Industries Group (NIRIG) response to the consultation and would like to highlight the correct implementation of these Articles will play a large role in the timely delivery of 70% renewable electricity in Ireland and in meeting Northern Ireland's future renewable energy targets.

We support the positions taken by IWEA and NIRIG and wish to reiterate that the points raised in their consultation response are extremely important to ensure reduced investment risk in Ireland and Northern Ireland and will lead to the most cost-effective method of meeting 2030 renewable energy targets.

In conclusion, we would like to thank the SEM Committee for the opportunity to engage on this matter and look forward to continuing our work with you in future.

If you have any queries, please do not hesitate to contact me.

Yours sincerely,

Ronan O'Meara
Managing Director
